Experience

08.2025 – ongoing

Working Student Business Process & Data Analysis
DFE Pharma GmbH, Goch, Germany

- Statistical analysis to improve bisiness deciscion making.
- Exploiting machine learning to make high accurate predictive models.
- Building dashboards for the OTC team.
- Automate business processes.
- Creating chatbot using RAG and NLP technichues.

02.2024 – 07.2024

Bachelor Thesis – Data Analytics in Research and Development
Hitachi High-Tech Analytical Science GmbH, Uedem, Germany

- Developed signal evaluation algorithms in Python, enhancing sensor calibration accuracy.
- Applied advanced 1-D convolution methods (e.g., Gaussian Smoothing, FFT) to reduce noise in spectral data.
- Analyzed large datasets for outlier detection, noise trends, and error sources.

09.2023 – 01.2024

Minor in Data-Driven Decision Making
Hogeschool van Arnhem en Nijmegen, Arnhem

Relevant Courses: Mathematics & Statistics (R, Python), Data Mining, Modelling, Data Visualization, Time Series Analysis

04.2023 – 09.2023

Data Analyst Intern – Research and Development
Hitachi High-Tech Analytical Science GmbH, Uedem, Germany

- Data cleaning and manipulation using Python and SQL.
- Implementing Python-based data smoothing methods including LOESS, Gaussian smoothing, and FFT.
- Building Dashboards using Bokeh, Panel, Dash, and Plotly

03.2022 – 06.2022

Volunteer Teaching Assistant for Machine Learning
ReDI School of Digital Integration, Düsseldorf, Germany

07.2013 – 08.2019 **Sales & Customers Relationshib**
El-Mashriq El-Araby exchanging currency office, Sharkya, Egypt

Education

09.2024 – ongoing **MSc. in Economics and Finance**
Hochschule Rhein-Waal, Kleve, Germany

Relevant Courses:
Quantitative Methods: Artificial Intelligence, Quantitative Methods, Econometrics, Banking and Portfolio Theory.
Economics & Finance: Modelling Stock Markets and Equity Evaluation, Applied Corporate Finance, Manegerial Economics, International Economics, Public Finance.

09.2019 – 07.2024 **BSc. in Industrial Engineering**
Hochschule Rhein-Waal, Kleve, Germany

Relevant Courses:
Mathematics & Programming: Calculus and Linear Algebra, Applied Mathematics and Probability Theory, Numerical Mathematics, Statistics, Programming, Operations Research, Game Theory, Modellling and Simulation, Controlling and Information Engineering.
Economics and Business Process: Production and Logistics, Accounting, Finance, Economics.

09.2008 – 07.2013 **BSc. in Petroleum Exploration and Production Engineering**
Suez University, Suez, Egypt

Relevant Courses:
Mathematics & Programming: Calculus, Linear Algebra, Numerical Methods, Probability & Statistics, Optimization, MATLAB, Python Programming.
Production & Process Engineering: Reservoir Engineering, Drilling Engineering, Production Engineering, Surface Facilities & Gas Processing, Enhanced Oil Recovery, Fluid Mechanics, Thermodynamics.

09.2006 – 07.2008 **High School**
Focus: Math, Physics, Chemistry, Economics and Statistics.

Skills

Programming: Python, R, SQL, MATLAB, Shell scripting (Zsh/Bash)

Data Analysis: pandas, NumPy, Transformers, scikit-learn, PyTorch, Langchain, Dash, Power BI, SQL

Automating Tools: Power Apps, n8n, Python, RAG

Languages: Arabic (Native), Englisch (Fluent), Deutsch (A2)
